Teacher Huddles! Check out this New Series!

First Session in September!

Goal of Teacher Huddles:
1. to provide learning opportunities for teachers to enhance their efficacy and effectiveness in planning, delivering, and assessing core instruction that meets the needs of all learners.
2. to engage educators in building the capacity as leaders of teaching and learning.

Sponsored by Iowa ASCD and NIET
Facilitate by Natalie Szakacs from NIET

Mental Health - Teach To Heal

2023-2024 Iowa State Education Association & Iowa ASCD
Teach to Heal: Systemic Approach to Support Mental Health in Our Schools
3-Day Session

Fall Session: September 25th & 26th, and November 13th, 2023 (8:00 am-4:00)
Spring Session: March 4th, 5th, April 8th, 2024 (8:00 – 4:00 pm)
Select Fall or Spring
Registration: https://iowaascd.org/events/register-now
Why Attend:
- We know that the mental health of our students is at the top of our lists as educators.
- We know their needs are increasingly complex and we know our staff are increasingly exhausted.
- We cannot continue to attempt to meet the needs of our students the way we have in the past hoping for a different result.

Talk today and bring your Team to:
- Learn and determine your current state of response
- Discuss & develop the foundation of your system
- Plan to create & implement an action plan.

Once your current state of response is determined and the foundation/system is in place --- actions/needs can be determined and resources from the Scanlon Center can be best accessed.

Who Should Attend? School Leadership Teams including administrators, school counselors, behavioral interventionists, social workers, school psychologists, teachers, health workers, community liaisons.

Day 1 & 2: The WHY, the WHO, and the HOUSE
Fall: September 25th & 26th, 2023 or Spring: March 4th & 5th 2024
Participants will explore the impact of varying factors on the mental health of our children. They will establish a clear understanding of the neurological and psychological implications of trauma on children and their learning. The WHY of the work will be outlined within a strong foundation which will serve as a platform for the remainder of the series. School culture will be outlined as an imperative part of effective educational systems. Participants will learn and discuss the components working for, and against, their systems and develop a plan for moving forward as a united front. Teams will walk away with applicable tools, and clarity surrounding role definition, that have the capacity to change the trajectory of their system and who they serve. Schools are the "houses" that education occurs within... the results we achieve have a direct correlation to the health of the "house" itself. Teams will leave with action steps to implement prior to day three.

Day 3: Setting the Interdependent Table
Fall: November 13, 2023 or Spring: April 8, 2024 (Pre-requisite Day 1 & 2)
Participants will have the opportunity to re ect and share their experiences with application and implementation following day one and two. Identified successes and barriers will be discussed with a focus on solutions. Teams will be introduced to Life Space Crisis Intervention as a highly effective strategy for children who struggle with maladaptive behavior patterns and dysregulation. Teams will leave with an understanding of how to introduce and support this intervention modality within the structure and culture of a healthy "house" and the partnering components of Teach to Heal. In addition, tools will be introduced to assist teams in preparing for high quality teaming within their systems.

Teach to Heal is an infrastructure for schools who are seeking to integrate the necessary components to meet the needs of all learners. This is not the easier path... but it is right for kids. Come start your Teach to Heal journey with this series.

Who should attend: Administrators, School Counselors, Behavior Interventionists, Mental Health Staff.
**Where:** West Des Moines Hilton Garden Inn, 205 S 64th Street, West Des Moines

**One License Renewal Credit** available through ISEA Academy

**Teach To Health - Addressing Mental Health in Our School's**

![Checkmark](image)

This series is about creating a system in the school to support students of trauma and/or behavior issues and provide staff with information, support and tools.
As you are aware, today’s school environment has changed. There are new and different issues with student behaviors and educators are finding that previous techniques are not effective.

A new paradigm is needed - a whole school approach- so both teachers and students are supported.

This series provides a foundation/framework upon which to build a school wide system. One that can be built upon with tools, resources, and support.

We must be Solution Focused!
**What People are Saying about this Series**

*Led by Danielle Theis* A national consultant on mental health and trauma-responsive schools.

*We have a plan for the students we have today!! Excited to learn ‘new to us” techniques and interventions that will lead to success for students and less stress for us!* Middle School Team

*We started building our foundation - our system that will benefit ALL students and staff!! No more piecemeal attempts. Excited to share and for staff to participate in creating our action plan.* School Leadership Team

*Everyone who teaches should take it! The interventions, brain development, the effect that trauma has on the brain, and how best to teach students who are dysregulated. I plan to begin using the interventions and using the language right from the first day of school.* Teacher

*This was the best training/preparation for school that I have ever had. I am fortunate to be part of a school district that provides this type of training for its employees!* Teacher

*Danielle did a fantastic job meeting people where they were at and encouraging them. She provided feedback consistently and was very knowledgeable. I really enjoyed learning from her!* Special Education Consultant

---

**Introducing Danielle Theis**

Danielle Theis has served children and families since 1990. She has provided leadership in schools for children struggling significantly with behavior along with management of their mental health and the impacts of trauma, since 2000. Danielle is a Special Education Director, Principal, and Psychotherapist. Her unique lens is a combination of what is clinically and educationally appropriate for children. Danielle is a dynamic and engaging presenter with a true passion for kids who struggle in school. She currently serves as the Director of Special Services in Owatonna, Minnesota.

Danielle is one of 20 Master Trainers for Life Space Crisis Intervention in the world. She is acknowledged by the Minnesota Department of Education as an expert in reducing restrictive procedures and working effectively with children who display significant behavioral challenges.
